

## Glencoe Lodge Supporting our Community

### Russ, Aaron, Sherrie, Patti, Jacqueline, Ken

North Plains may be a small community—home to roughly 3,500 residents—but the Senior Center plays an outsized role in supporting local seniors. Even with a modest population, the center regularly serves hundreds of older adults each year through meals, activities, wellness programs, and community events. For many, it's a vital gathering place that keeps people connected, supported, and engaged.

The Knights of Pythias have a long tradition of friendship, charity, and benevolence, and this contribution is a strong example of their commitment to strengthening local endeavors. Their support helps ensure the Senior Center can continue offering essential services to the growing senior population in and around North Plains.
